ACTION 01

Bring Brand Stories to Reels

Existing YouTube footage → 30–90 sec Reel

VIRAT | BTS | PRODUCT STORIES

Existing asset → Low new-production requirement → Test

ACTION 02

Make Product × Personality repeatable

Move from Product → Post to Athlete + Story + Product → Content, as a standing format rather than a one-off.

Purpose: strengthen product consideration

ACTION 03

Extend events beyond the announcement

Announcement → Event → Recap → UGC. Underground Race Festival is the audit example. Opportunity: extend the event story through recap and UGC.

Can build from existing event footage and attendee content

YOUTUBE OPPORTUNITY

Make existing short-form content work harder

10/10

audited videos are long-form

10 YouTube videos audited

Short-form was not separately audited.

Purpose: diversify attention sources

RECOMMENDATION 03
